Kareem Williams

Digital Media Professional, Marketer, Artist and Full Stack Web Developer
Portfolio | +18687687915 | kareem.williams@brwncreative.com| linkedin.com/brwncreative

With over half a decade of experience in web development, customer service and digital media, I try to be adequately equipped for any responsibility delegated to me; I strive to be an asset to those I work with in a collaborative setting and eagerly seek new standards for self-improvement at all turns.

Work Experience

BM Electronics Limited Trincity, Trinidad **Jan 2025 – Present**
(Assistant Marketing and Sales Manager, Web Developer, Content Creator)

- Created 2D advertisements for all social media platforms.
- Liaised with company sales teams frequently, to coordinate effective campaigns and provide promotional material when necessary.
- Re introduced Hire Purchase to the retail arm of the business, to increase customer buying power and subsidize slow periods.
- Oversaw the company's TikTok page leading to a 6,000+ follower increase, 250% viewership and engagement increase and new demographic opportunities.
- Developed www.bmelectronics.com and www.maxsonicelite.com to function as information hubs, a means to instill confidence in stakeholders, and e-commerce solutions. Notably, www.bmelectronics.com received 2,200 new users and 35,000 interactions in its first month, and maintains around 100 users daily (per google analytics). Both sites load under one second, even with heavy web traffic, and score over 90 in SEO optimization (per lighthouse).
- Worked with previous manager on public outreach and philanthropic initiatives.
- Engaged in telemarketing, email marketing, retail sales and B2B sales.
- Generated performance reports, marketing analyses and presentations for upper management.
- Acted as a provisional HR assistant, vetting new hires and onboarding 3 employees of my own.

PBS Technologies Curepe, Trinidad **June 2023 – Jan - 2024**
(Intern, Contractor)

- Utilized Kentico CMS and the asp.net framework to optimize and rework existing web components and UI/UX elements of a client-side website.
- Produced digital media content for marketing campaigns, company products, social media, rebranding initiatives and in house events.
- Engaged in client onboarding sessions and negotiation.

Wepala Tunapuna, Trinidad **June 2022 - Dec 2022**
(Intern, Contractor)

- Contributed to the front end of a client project and awarded 70% of its UI/UX ideation and development during my probationary period.
- Produced digital media content and infographics for marketing/ in-house purposes and advertising campaigns yielding a boost in customer retention across in use social platforms (per meta-analytics).
- Participated in client meetings, SCRUM, and other agile, collaborative workflow methodologies (peer-programming) to bolster the adequacy and appropriateness of work to be delivered.

Brwncreative **Jan 2018 - Present**
(Registered Sole Trader, 2023)

- Acting under the pseudonym 'Brwncreative', leveraged abilities in web development, digital illustration/ media, and marketing, to offer services locally and internationally.

Projects worked on

BM Electronics Web Application www.bmelectronics.com
E-commerce web application being built using Laravel, Laravel Livewire, Tailwind, PHP, SQLite, HTML and traditional CSS.
Notable Features:

- Built in CMS and employee dashboard with tools for calculating Hire Purchase and Layaway, creating links to Wi Pay for online payments and bulk email messaging.
- Quick load times made possible by strategic caching, lazy loading, optimized code and database architecture, minification and JSON.

East and Embers www.eastandembers.com
E-commerce web application being built using Laravel eco system, PHP, SQLite, HTML and CSS. Wireframes, prototypes and assets developed Figma, illustrator and photoshop.
MediTruth: Machine learning Health care misinformation detection system.

- Maintained an understanding of the backend (Python, Flask) for 100% Front End undertaking (HTML, CSS, Vue, Bootstrap, JavaScript)
- Contributed to documentation and further constructing and leading presentation for panelist showcasing.
- Participated in agile workflow methodologies, leveraging GitHub and the Atlassian management tool.
